# Assignment 2 : Introduction to WEB tools
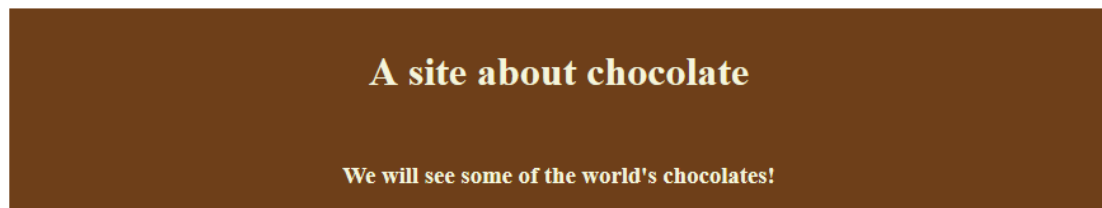

Prerequisites for this assignment:
- [Lists](#)
- [Text formatting](#)
- [Images](#)
- [Image as Link](#)

## Lists

Open the file index.html in the folder " yourNameWEB2GitTest" in your editor. Insert an ordered list and save the file. The browser's output should be as shown in the following image:

**A site about chocolate**

**We will see some of the world's chocolates!**

1. It arrived to Europe in 16$^{th}$ century
2. The first years, only drinking chocolate was available
3. It was considered luxury food!
4. It contains caffeine
5. Your brain needs it after hard work!

```
You need the following text

    It arrived to Europe in 16th century

    The first years, only drinking chocolate was
available

    It was considered luxury food!

    It contains caffeine

    Your brain needs it after hard work!
```
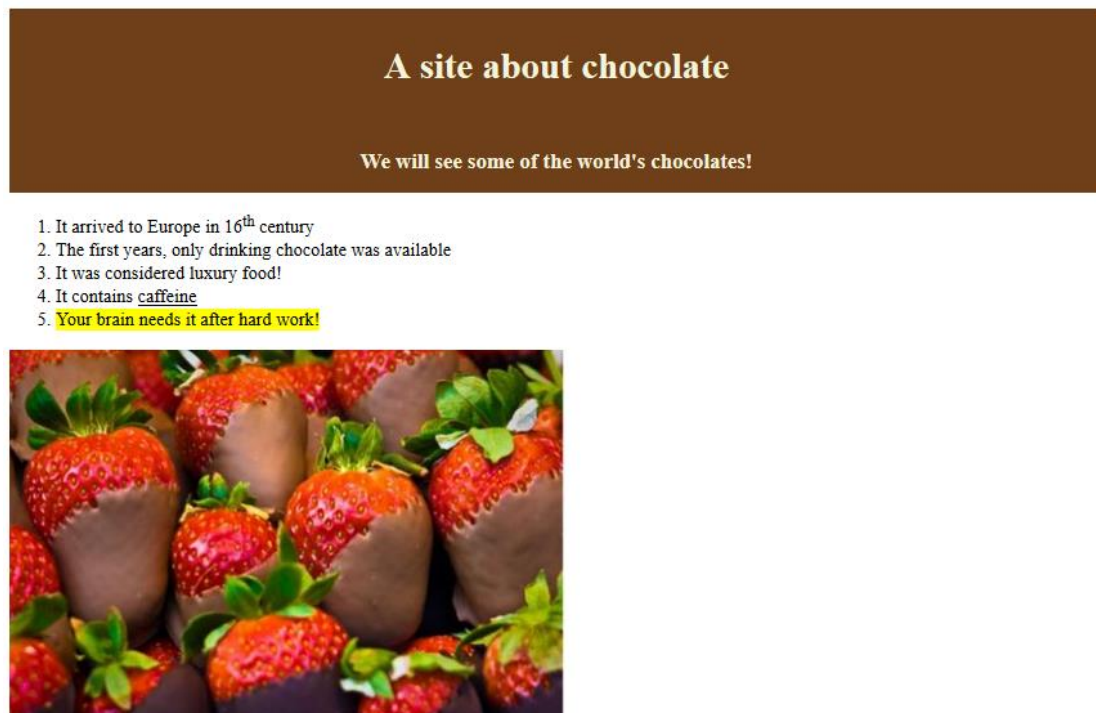

## Media - Links

In the folder  yourNameWEB2GitTest  create  a sub-folder images and download here the "chocolatethings.jpg"

Insert the image with alternative text and title in the index.html file.

Link the image to the page "Wikipedia chocolate". The url of this page is "https://en.wikipedia.org/wiki/Chocolate". We want to open this link in a new window.

The browser's output should be as shown in the following image:

## Git -Github

Do a Git commit with the message  "Introduction to WEB tools Assignment 1".

Push the changes on  your Github Repo   "git push origin master".

Copy in a temp file the address of your Github repo. It must look like:

"https://github.com/vasilispalilis/vasilisWEB2GitTest"

## Web Server

Update your files on the  https://cnc-wp1.ellak.gr server.

Copy in a temp file the address of your Server index.html file. It must look like:

"https://cnc-wp1.ellak.gr/vasilisNameWEB2/vasilisWEB2GitTest/index.html"

**To submit your work, you have to paste these addresses in the submission area.**
